Hedging & grass

Hedging tips:

- Use sharp clean cutting tools & disinfect between varieties to avoid spreading disease.
- Place a sheet (or similar) underneath to catch clippings, it will save lots of time cleaning up.
- Take your time, make sure you step back frequently so you are getting the desired shape.

Making a unique succulent garden...

- Create a succulent tapestry by planting them closely together according to a design template. Use plants of different colours & shapes as your embroidery materials.
- Recreate the look of a reef by planting varieties of succulents that look like undersea creatures or plants.
- Grow succulents in crevices in natural stone or stone-look containers so they appear to be emerging from a rocky outcrop.
- Vertical gardens made of succulents are a high-impact feature to display an array of succulent colours, shapes, contrasts & textures.
- Create a succulent letter garden by planting succulents in letter-shaped frames. Use your first or last initials or spell out entire words & phrases.

- A Aloe Firebird \$15.99EA**
