Autumn & Winter Growing Tips

- Plant flower seedlings & bulbs
- Plant vegies like Cabbage, Broccoli & Cauliflower
- Trim & tidy hedges & flowering shrubs like Hydrangea, Crape Myrtle, Lavender & Rosemary
- Aerate your lawn, seed grass & spray for weeds like Bindi
- Dig in compost & manure
- Add mulch to protect from colder weather & retain moisture
- Plant young citrus trees
- Fertilise - it pays to be plant specific
- Watch for pests - especially aphids & fruit flies

On sale from Wednesday 10 April 2024 to Sunday 28 April 2024, while stocks last. Sizes, colours and varieties may vary among stores. Accessories, plants, pots and tools are not included unless stated otherwise. Some products may require assembly.

Grow your own...

Autumn is the time to plant all you winter edibles like Broccoli, Cauliflower, Brussel Sprouts, Carrots, Lettuce, Silverbeet, Peas, Broadbeans & Citrus. Veggies grow best in rich, fertile soil in full sun protected from the wind. Keep an eye out for snails & slugs in Autumn & protect

your crop with a good snail & slug killer. Green caterpillars will make a bee-line for your brassica crops (including Broccoli, Brussel Sprouts, Cabbage & Cauliflower). Netting is the best option to protect crops or spray a good caterpillar killer.

\$12
