Autumn & Winter Growing Tips

- Plant flower seedlings & bulbs
- Plant vegies like Cabbage, Broccoli & Cauliflower
- Trim & tidy hedges & flowering shrubs like Hydrangea, Crape Myrtle, Lavender & Rosemary
- Aerate your lawn, seed grass & spray for weeds like Bindi
- Dig in compost & manure
- Add mulch to protect from colder weather & retain moisture
- Plant young citrus trees
- Fertilise - it pays to be plant specific
- Watch for pests - especially aphids & fruit flies

\$10^{PR}

20Pk **\$9.50**
9324190089746 / 3355

Grow your own...

Autumn is the time to plant all your Winter edibles like Broccoli, Cauliflower, Brussel Sprouts, Carrots, Lettuce, Silverbeet, Peas, Broadbeans & Citrus. Veggies grow best in rich, fertile soil in full sun protected from the wind.

Green caterpillars will make a bee-line for your brassica crops (including Broccoli, Brussel Sprouts, Cabbage & Cauliflower). Netting is the best option to protect crops or spray a good caterpillar killer.

\$17⁶⁰
Seasol Seaweed Solution Hose On 2.5L
 Ready to use.
